

Transparent Peer Review in *FEMS Microbes*

<https://academic.oup.com/FEMSmicrobes>

Authors publish peer review report	Reviewers disclose their name	Outcome*
No	No	Traditional single-blind peer review
No	Yes	Reviewer signs their name on the final manuscript
Yes	No	Peer-review report is published as Supplementary Material
Yes	Yes	Transparent peer review

*As decisions are taken post-acceptance of the manuscript, the peer-review process is single blind in all four options. In all cases, reviewers can seek recognition for their work on Publons. For more information, see [Instruction to Authors > Transparent Peer Review](#).
